

Installation of INT48pro labcad

This documentation describes how to install INT48pro labcad.

1. Upload INT48pro to your HP.
2. Press the INT48pro soft-key to push the library onto the stack.
3. Press the port number that you wish to store the library in.
4. Press the STO key.
5. Restart the HP.
6. Purge the library object from the Home directory by Recalling its name then by pressing Left-Shift followed by PURGE.
7. Upload one or all the math modules to the HP.
8. Recall the module to the stack by pressing the name of that math module.
9. Follow steps 3 through 6 for all math modules.
